UNIVERSITY OF
CALGARY

Seeking participants 6-12 years old for ADHD Study

The University of Calgary Conjoint Health Research Ethics Board has approved this research study
Ethics ID: REB17-0325 PI: Dr. Brenda Leung

Clinical trial to treat symptoms of ADHD with vitamins & minerals.

Participants will be **randomly** assigned to either the vitamins & minerals or a placebo for the 8 weeks. At the end of the 8 weeks, all participants will be eligible to take the vitamins and minerals for 8 weeks.

Participants will come to the University of Lethbridge five times to meet with study researchers to answer questions and receive the product

Your Child may qualify for this study if:

- S/he is between 6-12 years of age
- Not taking medication for ADHD
- Able/willing to swallow pills

For more information, please contact:
